

Guatemala Chapter

IEEE ComSoc Latin America Region

Regional Chapter Chair Congress 2016
Medellin, Colombia

Juan David Alvarado C.
Chapter Chair
david.alvarado@ieee.org

Work Done

- Lectures
 - Forum on Digitalization of TV in Guatemala.
 - Conferences
 - Microwave link design classes for USAC and Galileo University
 - Visit to Telefonica optical sea station at Puerto de San Jose
Due to CONESCAPAN held in Guatemala.
-

2016 Accomplishments

- Integration of Galileo and Del Valle University into the chapter.
- SIT integration to IEEE and ComSoc.
- 2nd year presenting paper at Latincom from Galileo University with ComSoc local chapter support.

Problems Encountered

- DL availability times.
 - Contact directed to DL is troublesome.
 - Fixing dates can be difficult due to coordination with other chapters.
-

Problems Solutions Plans

- Our suggestion for coordinating with other chapters is to monthly publicate among chapters our intended agendas for 3 months. We will see a lot of common ground and great ideas that we can apply in our chapter. Coordinating dates should be easier.
-

Next Year Work

- Plan 1
 - Already working with Puebla chapter and El Salvador chapter for a DL with Albert Banchs.
 - Plan 2
 - Guatemala will be greatly honoured to host the first Latincom in Central America.
-
