The screenshot shows the IEEE Communications Society website. A white circle highlights the IEEE logo in the top left corner. Another white circle highlights the 'COMSOC DIGITAL LIBRARY' link in the right sidebar. The website layout includes a top navigation bar with links: About ComSoc, Publications, Membership, Conferences, Standards, Contact Us, and Site Map. The main content area is divided into several sections: 'SEARCH COMSOC' with a search box and 'DIGITAL LIBRARY SEARCH' button; 'PUBLICATIONS' featuring links to 'IEEE Communications Magazine' (Management of Next-Generation Wireless Networks and Services), 'IEEE Network' (Multicasting: An Enabling Technology), and 'IEEE Wireless Communications' (3G Mobile Network Technologies and Experiences); 'HEADLINES' with news items about the 'Optical Communications Supplement', 'Featured Content' in the Digital Library, and the 'February' issue of C-news; a 'Reminder' about membership renewal for February 2003; and 'CONFERENCES' listing 'WCNC 2003' (IEEE Wireless Communications and Networking Conference), 'OFC' (Optical Fiber Communication Conference), and 'IM' (IEEE International Symposium on Information Theory). The right sidebar contains links to 'COMSOC DIGITAL LIBRARY', 'COMSOC JOURNAL COLLECTION', 'ADVERTISING INFORMATION' (IEEE Communications Magazine), and 'ComSoc Digital Library Subscription Info'. The date 'Thursday, 27 February, 2003' is displayed in the top right.

**ComSoc is a Community . . .**

**.. A Community comprised of a diverse group of industry professionals with a common interest in communications technologies. To that end, the Society sponsors publications, conferences, education, and research in the following areas:**

- Foster original work in all aspects of communications science, engineering, and technology.
- Encourage the development of applications that use signals to transfer voice, data, image, and/or video.
- Promote the theory and use of systems involving all types of terminals, computers, and information transfer; all transmission media; switched and unswitched networks; and network layouts, protocols, and standards.
- And strongly advance developments toward meeting new market demands in systems, products, and services for multimedia communications systems, enterprise networks, and optical communications systems.
